Subsequently [REDACTED] called from the Bureau and advised the letter should be taken to Washington and directly to the office of Asst. Dir. Donald J. Parsons, who has already been briefed concerning this matter.

I told [REDACTED] that we would be submitting recommendations on further action and at that time, Mr. A. H. Belmont spoke with me and indicated it would be desirable to hold off any action until the letter is examined so that the best course of action can be decided upon.

At 1:40 P.M., I spoke with ASAC Johnson, Boston, and suggested that they hold off until the Bureau decides upon the best course of action.

SA [REDACTED] was dispatched to the Bureau with instructions to proceed immediately to Mr. Parsons' office.

House in question is situated in reasonably crowded suburban area of inexpensive single homes. Close neighbors are situated on both sides, across the street, and to the rear of the house, which is situated in an exposed and prominent location on a bank several feet above the street level. House is new and landscaping incomplete. There are no trees or shrubs to provide any degree of privacy. It does not appear feasible to attempt to develop an anonymous source which would be entirely discreet. (C)

~~REDACTED~~ A check of the Detroit
criss-cross directories note that a large portion of the
inhabitants in the aforementioned neighborhoods appear to
be of Polish extraction.

~~REDACTED~~ The neighborhood is in a "poor" locality; however,
the apartment building appears extremely well maintained.
An examination of the criss-cross directory does not indicate
that the occupants are predominantly of a foreign national.
The neighborhood ~~REDACTED~~ is in a "poor" and "mixed" (C)
neighborhood.

The Bureau's and New York's attention is invited to the
fact that in order to establish Anonymous Informants at
the aforementioned residences, it would be necessary to
conduct appropriate neighborhood inquiries under pretext
to establish neighborhood sources, complete data regarding
occupants and figures to determine the pattern of activities
with respect to the occupants in question.

Since many of the neighborhoods consist of inhabitants
of foreign extraction, it has been this Office's experience
that such persons are of a "suspicious" nature and it
would be extremely difficult to discreetly obtain pertinent
information regarding residents in that locale which would
be so necessary in the development of a successful anonymous
informant. Figures could not be maintained for extended
period of time, without arousing the curiosity of neighbors.

suspicion than the establishment of Anonymous Informants
at their respective residence and possible ramifications
as noted above.

In view of the delicate nature of this inquiry, and that Detroit's investigation has been restricted to record checks and contact with established sources, it is felt that suggestion #4 would possibly be productive in the event of any future contact. However, this would not insure that the requested information could be ascertained through this method.

~~_____~~
It should be realized however that the relatives in Detroit undoubtedly will be ultimately interviewed when this case is brought to a logical conclusion and the pretext previously utilized would be obvious to them.

The Bureau's and OO's observations and suggestions are solicited with respect to the above comments.
